

SonarQube Scanner for Hudson

Deprecated

This plugin has been deprecated. If you are looking for new features, you should move to Jenkins and the [SonarQube Scanner for Jenkins](#).

Description

This plugin allows you to trigger SonarQube analysis from [Hudson](#):

- Build step to trigger the analysis with the SonarQube Runner
- Post-build action to trigger the analysis with Maven

Installation

Prerequisites: [SonarQube](#) and [Hudson](#) must be installed.

Install the SonarQube Hudson plugin via the Hudson Update Center.

Usage

1. [Configuring Hudson SonarQube Plugin](#)
2. [Triggering a SonarQube analysis from Hudson](#):
 - a. [Triggering a SonarQube analysis with the SonarQube Runner](#)
 - b. [Triggering a SonarQube analysis with Maven](#)

Advanced Topics
